

COUNTING SCALES/ COUNTING SYSTEMS/ SPECIAL STOCKTAKING SCALES

2017

PROFESSIONAL
MEASURING

KERN Pictograms

	Internal adjusting: Quick setting up of the balance's accuracy with internal adjusting weight (motordriven).		Piece counting: Reference quantities selectable. Display can be switched from piece to weight.		Rechargeable battery pack: Rechargeable set.
	Adjusting program CAL: For quick setting up of the balance's accuracy. External adjusting weight required.		Recipe level A: Separate memory for the weight of the tare container and the recipe ingredients (net total).		Universal mains adapter: with universal input and optional input socket adapters for A) EU, GB B) EU, GB, CH, USA C) EU, GB, CH, USA, AUS
	Memory: Balance memory capacity, e.g. for article data, weighing data, tare weights, PLU etc.		Recipe level B: Internal memory for complete recipes with name and target value of the recipe ingredients. User guidance through display.		Mains adapter: 230V/50Hz in standard version for EU. On request GB, USA or AUS version available.
	Alibi memory: Electronic archiving of weighing results, complying with the 2009/23/EC standard. For details see page 199		Recipe level C: Internal memory for complete recipes with name and target value of the recipe ingredients. User guidance through display, multiplier function, adjustment of recipe when dosages are exceeded or barcode recognition.		Power supply: Integrated in balance. 230V/50Hz standard EU. More standards e.g. GB, USA or AUS on request.
	Data interface RS-232: To connect the balance to a printer, PC or network.		Totalising level A: The weights of similar items can be added together and the total can be printed out.		Weighing principle: Strain gauges Electrical resistor on an elastic deforming body.
	RS-485 data interface: To connect the balance to a printer, PC or other peripherals. High tolerance against electromagnetic disturbance.		Percentage determination: Determining the deviation in % from the target value (100 %).		Weighing principle: Tuning fork A resonating body is electromagnetically excited, causing it to oscillate.
	USB data interface: To connect the balance to a printer, PC or other peripherals.		Weighing units: Can be switched to e.g. nonmetric units at the touch of a key. See balance model. Please refer to KERN's website for more details.		Weighing principle: Electromagnetic force compensation Coil inside a permanent magnet. For the most accurate weighings.
	Bluetooth* data interface: To transfer data from the balance to a printer, PC or other peripherals.		Weighing with tolerance range: Upper and lower limiting values can be programmed individually for e.g. dosing, sorting and portioning		Weighing principle: Single cell technology Advanced version of the force compensation principle with the highest level of precision.
	WLAN data interface: To transfer data from the balance to a printer, PC or other peripherals.		Hold function: (Animal weighing program) When the weighing conditions are unstable, a stable weight is calculated as an average value.		Verification possible: The time required for verification is specified in the pictogram.
	Control outputs (optocoupler, digital I/O): To connect relays, signal lamps, valves, etc.		Protection against dust and water splashes IPxx: The type of protection is shown in the pictogram. For details see page 56.		DAKkS calibration possible (DKD): The time required for DAKkS calibration is shown in days in the pictogram.
	Interface for second balance: For direct connection of a second balance.		ATEX explosion protection: Suitable for use in hazardous industrial environments, in which there is explosion danger. The ATEX marking is specified for each device.		Package shipment: The time required for internal shipping preparations is shown in days in the pictogram.
	Network interface: For connecting the scale to an Ethernet network. With KERN products you can use a universal RS-232/LAN converter. See page 166		Stainless steel: The balance is protected against corrosion.		Pallet shipment: The time required for internal shipping preparations is shown in days in the pictogram.
	Wireless data transfer: between the weighing unit and the evaluation unit using an integrated radio module.		Suspended weighing: Load support with hook on the underside of the balance.		Warranty: The warranty period is shown in the pictogram.
	GLP/ISO log: The balance displays the weight, date and time, regardless of a printer connection.		Battery operation: Ready for battery operation. The battery type is specified for each device.		
	GLP/ISO log: With weight, date and time. Only with KERN printers, see "Accessories", see page 163.				

KERN – measuring technology and testing services from a single source

Balances & Test service catalogue

Provides a complete overview of the KERN line of balances, test weights, and services such as verification, calibration, etc.

Medical scales catalogue

Complete line of medical scales, from infant scales to patient scales, chair scales and adiposity scales, as well as hand grip dynamometers, chemist's balances and veterinary scales.

Microscopes & refractometers catalogue

Extensive range in the area of optical instruments, such as, for example, biological microscopes, stereo microscopes, metallurgical microscopes, polarisation microscopes as well as analogue and digital refractometers.

SAUTER measuring equipment catalogue

Test instruments for industry and commerce, such as force, coating thickness, material thickness and calibration service.

DAkkS calibration service brochure

Detailed information on topics pertaining to the calibration and verification of balances, test weights, and force measuring devices.

Your advantages

fast

- 24 hours delivery service – ordered today, on its way tomorrow
- Sales & service hotline available from 8:00 am to 6:00 pm

reliable

- 3 years warranty for balances over € 400,-
- Precision in weighing technology for more than 170 years

competent

- DAkkS accreditation DIN EN ISO/IEC 17025
- Certified QM system DIN EN ISO 9001:2008
- Authorisation for initial verification by the manufacturer 2014/31/EU
- Medical certifications DIN EN ISO 13485 and 93/42/EEC

versatile

- One-stop shopping: from pocket balances through to floor scales – everything from one supplier
- Find the product you want at lightning speed with the “Balance Quick-Finder” at www.kern-sohn.com

 **Order hotline**

 **www.kern-sohn.com**
Information on current product availability, product data sheets, user instructions, useful knowledge, technical glossary, images and much for you to download, practical topic areas, which will guide you to the right product in your industry as well as a clever test weight and balance search engine.

Counting scales/Counting systems/Special stocktaking scales

Interesting facts about density determination

Smallest part weight when counting

Smallest piece the scale will accept for piece counting and piece count display. In practice, depending on the required accuracy, we recommend to choose a counting scale with a minimum piece weight smaller than the weight of the item to be counted. To make it easier for you to select the right model, we give the smallest part weight when counting under laboratory conditions and normal conditions, see the website.

► **Counting resolution**

Describes the maximum quantity which can be counted with a counting accuracy of 1 %, with a minimum variation of item weights and a sufficiently large ► **reference quantity** (20 pieces with counting resolution \leq 60,000 points, 50 pieces from 60,000–150,000 points, 100 pieces \geq 150,000 points). This therefore is an indication of the quality of the counting scale.

Recommended ► **reference quantity**

Weight tolerances of pieces to be counted are the most significant sources of error when counting. Therefore, at the start of every counting procedure, establish an average weight, the so-called ► **reference weight**, by placing several pieces on the balance, the so-called reference quantity.

Usually this would be:

5 pieces	>>	often sufficient
10 pieces	>>	common practise
20–100 pieces	>>	for large deviations among piece weights

The “automatic ► **reference optimisation**“ function increases the reference quantity gradually, whereby the average piece weight is optimised step by step. This contributes considerably to the accuracy of the subsequent counting processes.

Which counting scale for which application?

Simple counting scale

with self-explanatory user guidance on the keyboard. The graphic control panel enables you to start working immediately, without having to consult the user manual. Easy handling, value for money.

Professional counting scale

with 3 separate displays for reference weight (average weight of the pieces), total weight of all pieces and total quantity of all pieces. Very useful integrated memories, e.g. for container weight, item number, reference weight as well as audible and visual counting aids and an alphanumeric key pad for easy data entry.

Special tip for counting large quantities:

Counting systems

The weighing ranges of bench counting scales are often not sufficient to count large quantities, units, palletized items, etc. Here high-performance counting systems come into operation, as these combine a high-precision reference scale with a high-capacity bulk scale.

Special stocktaking scales SMT, FKA and FKC

For demanding quantity measurement, e.g. as part of a stocktake. With its easy-to-use touch screen, special stocktaking software and PC connection this makes it quicker to collect and analyse stock levels

► *See the glossary on page 199–201*

Your product specialist's recommendation:

Intelligent, rapid counting system with inventory system

Enormous item memory

Intuitive touchscreen operation

Note: Official verification duty for commercial trade

Entry level model into professional counting, also with EC type approval [M], counting resolution of 30,000 points

Features

- **Precise counting:** The automatic reference weight optimisation of reference weight gradually improves the average piece weight value
- **Programmable using numerical key pad:**
 - required reference quantity
 - known reference weight
- **Three displays** for weight display (verifiable), reference weight, total weight
- **Audible Fill-to-target:** target quantity or target weight can be programmed. When the target value is reached, a signal will sound
- **Counting results memory:** adds up all individual piece counts, result is shown in total weight and total pieces

- **Energy management:** Backlight turns off after 5 sec
- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels
- **Two balances in one:** Changes from counting mode to weighing mode at the touch of a key

Technical data

- Large backlit LCD displays, digit height 18 mm
- Dimensions weighing surface, stainless steel, WxD 300x225 mm
- Dimensions housing WxDxH 300x330x110 mm

- Rechargeable battery pack internal, operating time up to 200 h without backlight, charging time approx. 8 h
- Net weight approx. 4,0 kg
- Permissible ambient temperature -10 °C/40 °C

Accessories

- **Protective working cover,** can be re-ordered, scope of delivery: 5 items, KERN CXB-A01S05, **€ 36,-**
- **Rechargeable battery pack internal,** operating time up to 200 h without backlight, charging time approx. 8 h, KERN GAB-A04, **€ 40,-**

Professional model, also with EC type approval [M], counting resolution up to 60,000 points

08

Features

- **Precise counting:** The automatic reference weight optimisation of reference weight gradually improves the average piece weight value
- **Programmable using numerical key pad:**
 - required reference quantity
 - known reference weight
- **Three displays** for weight display (verifiable), reference weight, total weight
- **Counting results memory:** adds up all individual piece counts, result is shown in total weight and total pieces
- **Audible Fill-to-target:** target quantity or target weight can be programmed. When the target value is reached, a signal will sound
- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels

- **High mobility:** thanks to rechargeable battery operation (optional), compact, lightweight construction, it is suitable for the use in several locations (production, warehouse, dispatch department etc.)
- **Two balances in one:** Changes from counting mode to weighing mode at the touch of a key

Technical data

- Large backlit LCD displays, digit height 20 mm
- Dimensions weighing surface, stainless steel, WxD 295x225 mm
- Overall dimensions WxDxH 315x350x100 mm
- Net weight approx. 3,2 kg
- Permissible ambient temperature 0 °C/40 °C

Accessories

- **Protective working cover**, can be re-ordered, scope of delivery: 5 items, KERN CFS-A02S05, **€ 40,-**
- **Rechargeable battery pack internal**, operating time up to 90 h without backlight, charging time approx. 12 h, KERN GAB-A04, **€ 40,-**
- **Signal lamp** for visual support of weighing with tolerance range, KERN CFS-A03, **€ 250,-**
- **Y-cable** for parallel connection of two terminal devices to the RS-232 interface on the scale, e.g. signal lamp or barcode reader and printer, KERN CFS-A04, **€ 35,-**
- Further details, plenty of further accessories and suitable printers see *Accessories*

Professional, high-resolution counting scale with 100 item memories and second balance interface, counting resolution up to 75,000 points

Features

- **Memory (PLU)** for 99 items with additional text, reference weight and tare weight, e.g. of a container
- **Precise counting:** The automatic reference weight optimisation of reference weight gradually improves the average piece weight value
- **Programmable using numerical key pad:**
 - required reference quantity
 - known reference weight
- **Weighing with tolerance range (check-weighing):** a visual and audible signal helps with portioning, dispensing or grading
- **Fill-to-target function:** Programmable target quantity or target weight. A signal will be displayed when the target value is reached
- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels

- **Second balance interface** to construct a high-resolution counting system, standard, e.g. with weighing bridges KERN KFP-V20

Technical data

- Large backlit LCD displays, digit height 20 mm
- Weighing plate dimensions W×D×H
 - A ø 80 mm
 - B W×D 300×225 mm, see larger picture
 - C W×D 320×350 mm
- Overall dimensions W×D×H
 - A 320×350×180 mm (incl. draught shield)
 - B 320×350×125 mm
 - C 320×350×125 mm
- Permissible ambient temperature 0 °C/40 °C

Accessories

- **Protective working cover**, standard for models with weighing plate size A, B, can be re-ordered, scope of delivery: 5 items, KERN CFS-A02S05, € 40,-
- **Rechargeable battery pack internal**, operating time up to 70 h without backlight, charging time approx. 14 h, KERN GAB-A04, € 40,-
- **Signal lamp** for visual support of weighing with tolerance range, KERN CFS-A03, € 250,-
- **Y-cable** for parallel connection of two terminal devices to the RS-232 interface on the scale, e.g. signal lamp or barcode reader and printer, KERN CFS-A04, € 35,-
- **WLAN interface** for wireless connection of the balance to networks and WLAN capable devices, such as tablets, laptops or smartphones, KERN CFS-A05, € 120,-
- Further details, plenty of further accessories and suitable printers see *Accessories*

Easy to use, self-explanatory counting scale with laboratory accuracy, counting resolution up to 360,000 points

- Optional battery operation, 6x1.5 V Size C not included, operating time up to 40 h, for models with weighing plate size **C**
- Permissible ambient temperature 10 °C/40 °C

Features

- **Self-explanatory graphic control panel**, the workings steps can be understood immediately, even without operating instructions
 - no learning time = reduces costs
 - ideal for untrained users
 - visualised process avoids operating errors
- The 4 steps are carried out from left to right:
 - 1** Place the empty container onto the weighing plate and tare by pressing the TARE key
 - 2** Place the reference quantity for the goods to be counted into the container (5, 10 or 20 pieces)
 - 3** Confirm the selected reference quantity by pressing the key (5, 10 or 20)
 - 4** Pour in the goods to be counted. The number of pieces will immediately be shown in the display

- **Precise counting:** The automatic reference weight optimisation of reference weight gradually improves the average piece weight value
- **Two balances in one:** Changes from counting mode to weighing mode at the touch of a key

Industrial counting scale with convenient decimal keypad for easy data entry - now also with EC type approval [M], counting resolution up to 75000 points

Features

- **Tough industry standard** suitable for use in harsh industrial applications
- **Ergonomic display device** with large keypad and high-contrast LCD display for easy entry and reading of, e.g., tare weights, reference weights, limit values etc.
- **100 item memories** for master data such as reference weight, reference quantity, container weight (PRE-TARE) etc.

- **Precise counting:** The manual reference weight optimisation gradually improves the average value of the piece weight
- **Totalising** of pieces when counting

Technical data

- Large backlit LCD display, digit height 16,5 mm
- Dimensions of display device W×D×H 260×150×65 mm

- Cable length of display device approx. 3 m
- Permissible ambient temperature 0 °C/40 °C

Accessories

- **Protective working cover**, standard, can be re-ordered, scope of delivery: 5 items, KERN KFB-A02S05, **€ 35,-**
- **Stand** to elevate display device, height of stand approx. 330 mm, KERN IFB-A01, **€ 50,-**
Column height approx. 600 mm, for models with weighing plate size **B**, **C**, KERN IFB-A02, **€ 60,-**
- **Suitable printers** see *Accessories*

Stocktake scale with touchscreen to quickly measure the quantity of stock items and transfer the information to the PC

Features

- Application-orientated balance-PC system for rapid and reliable recording of stock levels, e.g. as part of a stocktake or goods inwards control
- **1** **Using the software included as standard**, an excel list produced by a PC with stocktake items can be transferred to the balance. In the warehouse, stocktake items can then be weighed, counted and stored by the balance, while still in their containers. In doing this, the stored container weight will be subtracted automatically. After the stocktake, the stock level will then be transferred back to the PC and can then be processed further as an excel table. In this way the amount of work and input at the balance is kept to a minimum and time efficiency is maximised = saves costs
- **High Flexibility:** During stocktaking, stored PRE-TARE can be corrected immediately on the scale. Items which have not yet been recorded can easily entered using the scale and then transferred in the stock level list

- **1000 item memories** for master data such as reference weight, reference quantity, container weight (PRE-TARE) etc.
- During stocktaking it is possible to **print individual items** recorded
- **2** Barcode scanner can be connected for rapid item recognition, with no confusion

Technical data

- Large backlit LCD touch display, digit height 18 mm, screen diagonal 5,8" (127x74mm)
- Dimensions weighing surface, stainless steel, WxD 340x240 mm
- Dimensions housing WxDxH 350x390x120 mm
- Optional battery operation, 6x1.5 V Size C not included, operating time up to 15 h
- Net weight approx. 7 kg
- Permissible ambient temperature 10 °C/40 °C

Accessories

Quantity scale KERN FKA

Reference scale KERN KB

High-resolution counting system with counting resolution up to 5 Mio – with stocktaking and piece counting function out of stored data from/to the PC

Features

- **Counting with a reference balance for high counting accuracy:** The highly accurate KERN FKC counting system can replace a whole range of individual balances, efficiently and at a reasonable price
- The counting system consists of a bulk scale FKC and a reference balance KB-N as well as an interface cable
- Application-orientated balance-PC system for rapid and reliable recording of stock levels, e.g. as part of a stocktake or goods inwards control
- **Individual print formats:** Printouts can be individually adjusted depending on operating mode, application or your own requirements, directly at the balance or the PC. In this way the data related to these processes is documented accurately, efficiently and clearly
- **Note:** As well as stocktaking, the balance can be used in many other applications, e.g. as a weighing scale, commissioning balance or as a professional counting scale with item memory for up to 500 items and associated daily totals memory for each item

Accessories

Reference scale KERN KB-N

- **Protective working cover**, standard, can be re-ordered, scope of delivery: 5 items, KB 120-3N: KERN PCB-A02S05, € 30,-
KB 1200-2N: KERN PCB-A04S05, € 30,-
- **Rechargeable battery pack internal**, operating time up to 30 h, without backlight, charging time approx. 10 h, KERN KB-A01N, € 50,-

Quantity scale KERN FKA

- **Barcode scanner**, table-top version, dimensions WxDxH 230x150x135 mm, KERN SMT-A02, € 685,-
- **Barcode scanner**, hand-held version, dimensions WxDxH 235x210x115 mm, KERN SMT-A03, € 445,-
- **Radio barcode scanner**, hand-held version, dimensions WxDxH 225x220x110 mm, KERN SMT-A04, € 495,-
- Further details, plenty of further accessories and suitable printers see *Accessories*

Quantity scale KERN KFP

Reference scale KERN CFS

Counting system to count the smallest parts in the largest quantities, counting resolution up to 999,999 points

Features

- The highly accurate KERN CCS counting system can replace a whole range of individual balances, efficiently and at a reasonable price

Reference scale KERN CFS

- This professional counting scale, which can also be used as a stand-alone scale, meets the highest demands for accuracy, weighing range and volume of items, by being connected to a high-capacity weighing bridge
- **Programmable using numerical key pad:**
 - required reference quantity
 - known reference weight
- **Memory (PLU)** for 100 items with additional text, reference weight and tare weight, e.g. of a container
- **Fill-to-target function:** Programmable target quantity or target weight. A signal will be displayed when the target value is reached

- **Precise counting:** The automatic reference weight optimisation of reference weight gradually improves the average piece weight value

Quantity scale KERN KFP V20 IP65

- The high-accuracy quantity counting takes place on the weighing platform (= weighing bridge) KERN CCS. In this way even the smallest of parts can be counted in large volumes
- weighing plate stainless steel, painted steel base, for models with weighing plate size **A - E**
- **Aluminium singlepoint load cell** (1×3000e), protection against dust and water splashes IP65

Technical data

CFS

- Overall dimensions W×D×H
320×350×180 mm

- Dimensions weighing surface, stainless steel
 - I** CFS 300-3: Ø 80 mm
 - CFS 3K-5, CFS 6K0.1: W×D
300×225 mm
- Net weight approx. 2,6 kg

KFP/KFU

- Weighing plate dimensions W×D×H, stainless steel
 - A** 230×230×110 mm
 - B** 300×240×110 mm
 - C** 400×300×128 mm
 - D** 500×400×137 mm
 - E** 500×650×135 mm
 - F** 1000×1000×80 mm
 - G** 1500×1250×80 mm
 - H** 1500×1500×80 mm
 - I** 842×1300×90 mm
- Connection cable approx.
 - A - E** 2 m
 - F - I** 5 m

Counting system KERN CCS

Accessories

- **Protective working cover**, scope of delivery: 5 items, KERN CFS-A02S05, € 40,-
- **Rechargeable battery pack internal**, operating time up to 60 h without backlight, charging time approx. 12 h, KERN GAB-A04, € 40,-
- **Signal lamp** for visual support of weighing with tolerance range, KERN CFS-A03, € 250,-
- **Y-cable** for parallel connection of two terminal devices to the RS-232 interface on the scale, e.g. signal lamp or barcode reader and printer, KERN CFS-A04, € 35,-
- Further details, plenty of further accessories and suitable printers see *Accessories*

Information on other high-capacity bulk balances, such as, for example, pallet scales, drive-through scales or floor scales is available on request, for information on other counting systems with the KERN CFS reference balance (d = 0.1 g), please refer to the website

Quantity scale KERN KXP

Reference scale KERN ILT

Premium counting system for high-capacity counting applications with the highest level of accuracy, counting resolution up to 6 million points

Features

- The highly accurate KERN CCP counting system can replace a whole range of individual balances, efficiently and at a reasonable price
- 1 High level of connectivity:** Thanks to a range of integrated interfaces
- 2** Easy entering of item data using the connected barcode or RFID scanner
- USB interface** for transferring weighing data to the PC, printer, USB sticks etc.
- Alibi memory:** electronic archiving of weighing results
- User-friendly batch management** with batch master and batch number assignment, classification, batch derivation, batch determination, batch status management, shelf-life processing, documentary, original

and WIP batches, batch-specific units of measure, batch where-used list

- 3** On the basis of the KERN ILT reference balance, you can put together a wide range of high-performance counting systems, for example, with an additional bulk balance, to cover more weighing ranges - your KERN product specialist will be pleased to advise you
- For additional details on the reference scale, see KERN ILT
- For additional details on the quantity scale see KERN KXP/KFP

Reference scale KERN PLJ-C

Quantity scale KERN ILT

Premium counting system with EC type approval [M], for complex counting applications with the highest level of accuracy, counting resolution up to 6 million points

Features

- The highly accurate KERN CCT counting system can replace a whole range of individual balances, efficiently and at a reasonable price
- Thanks to EC type approval [M]** this counting system can also be used in verified applications, e.g. for order picking packaged items, etc.
- Alibi memory:** electronic archiving of weighing results
- High level of connectivity:** Thanks to a range of integrated interfaces
- USB interface** for transferring weighing data to the PC, printer, USB sticks etc.
- Individual print formats:** Printouts can be individually adjusted depending on operating mode, application or your own requirements, directly at the balance or the PC. In this way the data related to these processes

- is documented accurately, efficiently and clearly
- For additional details on the reference scale, see KERN PLJ-C/AEJ-C
- For additional details on the quantity scale see KERN ILT

ONLY WHILE STOCKS LAST !

Tradition and innovation for more than 170 years

An independent family business, KERN since already 7 generations is synonymous with quality and reliability in customer service.

► 1844

KERN is founded – precision balances are produced

► 1863

A proud Gottlieb Kern with his staff

► 1880

Pharmaceutical balance with Aesculap

► 1923

Inflation – KERN wages are paid with self printed currency

► 1980

The electronic balance ousts mechanical devices

► 1994

Accredited DKD laboratory (ISO 17025)

► 2000

New premises in Balingen

► 2002

Existing QM system certification in accordance with DIN EN ISO 9001:2000 standards

► 2007

Approval for the manufacture of medical products (DIN EN 13485 and 93/42/EEC)

► 2008

Authorisation for initial verification by the manufacturer (2009/23/EU)

► 2009

Approval for the manufacture and sale of height rods (DIN EN 13485 and 93/42/EEC)

► 2012

Verification point for non-automatic balances and test weights.

New customer portal www.kern-sohn.com goes live

► 2014

Expansion of the product range to include optical instruments (microscopes and refractometers)

► 2015

Inauguration of Ziegelei 2.0 with computer-controlled high-bay warehouse
