

# DISPLAY DEVICES/ PLATFORMS/ WEIGHING BRIDGES

# 2017

PROFESSIONAL  
MEASURING

# KERN Pictograms

	<b>Internal adjusting:</b> Quick setting up of the balance's accuracy with internal adjusting weight (motordriven).		<b>Piece counting:</b> Reference quantities selectable. Display can be switched from piece to weight.		<b>Rechargeable battery pack:</b> Rechargeable set.
	<b>Adjusting program CAL:</b> For quick setting up of the balance's accuracy. External adjusting weight required.		<b>Recipe level A:</b> Separate memory for the weight of the tare container and the recipe ingredients (net total).		<b>Universal mains adapter:</b> with universal input and optional input socket adapters for A) EU, GB B) EU, GB, CH, USA C) EU, GB, CH, USA, AUS
	<b>Memory:</b> Balance memory capacity, e.g. for article data, weighing data, tare weights, PLU etc.		<b>Recipe level B:</b> Internal memory for complete recipes with name and target value of the recipe ingredients. User guidance through display.		<b>Mains adapter:</b> 230V/50Hz in standard version for EU. On request GB, USA or AUS version available.
	<b>Alibi memory:</b> Electronic archiving of weighing results, complying with the 2009/23/EC standard. For details see page 199		<b>Recipe level C:</b> Internal memory for complete recipes with name and target value of the recipe ingredients. User guidance through display, multiplier function, adjustment of recipe when dosages are exceeded or barcode recognition.		<b>Power supply:</b> Integrated in balance. 230V/50Hz standard EU. More standards e.g. GB, USA or AUS on request.
	<b>Data interface RS-232:</b> To connect the balance to a printer, PC or network.		<b>Totalising level A:</b> The weights of similar items can be added together and the total can be printed out.		<b>Weighing principle: Strain gauges</b> Electrical resistor on an elastic deforming body.
	<b>RS-485 data interface:</b> To connect the balance to a printer, PC or other peripherals. High tolerance against electromagnetic disturbance.		<b>Percentage determination:</b> Determining the deviation in % from the target value (100 %).		<b>Weighing principle: Tuning fork</b> A resonating body is electromagnetically excited, causing it to oscillate.
	<b>USB data interface:</b> To connect the balance to a printer, PC or other peripherals.		<b>Weighing units:</b> Can be switched to e.g. nonmetric units at the touch of a key. See balance model. Please refer to KERN's website for more details.		<b>Weighing principle: Electromagnetic force compensation</b> Coil inside a permanent magnet. For the most accurate weighings.
	<b>Bluetooth* data interface:</b> To transfer data from the balance to a printer, PC or other peripherals.		<b>Weighing with tolerance range:</b> Upper and lower limiting values can be programmed individually for e.g. dosing, sorting and portioning		<b>Weighing principle: Single cell technology</b> Advanced version of the force compensation principle with the highest level of precision.
	<b>WLAN data interface:</b> To transfer data from the balance to a printer, PC or other peripherals.		<b>Hold function:</b> (Animal weighing program) When the weighing conditions are unstable, a stable weight is calculated as an average value.		<b>Verification possible:</b> The time required for verification is specified in the pictogram.
	<b>Control outputs (optocoupler, digital I/O):</b> To connect relays, signal lamps, valves, etc.		<b>Protection against dust and water splashes IPxx:</b> The type of protection is shown in the pictogram. For details see page 56.		<b>DAKkS calibration possible (DKD):</b> The time required for DAKkS calibration is shown in days in the pictogram.
	<b>Interface for second balance:</b> For direct connection of a second balance.		<b>ATEX explosion protection:</b> Suitable for use in hazardous industrial environments, in which there is explosion danger. The ATEX marking is specified for each device.		<b>Package shipment:</b> The time required for internal shipping preparations is shown in days in the pictogram.
	<b>Network interface:</b> For connecting the scale to an Ethernet network. With KERN products you can use a universal RS-232/LAN converter. See page 166		<b>Stainless steel:</b> The balance is protected against corrosion.		<b>Pallet shipment:</b> The time required for internal shipping preparations is shown in days in the pictogram.
	<b>Wireless data transfer:</b> between the weighing unit and the evaluation unit using an integrated radio module.		<b>Suspended weighing:</b> Load support with hook on the underside of the balance.		<b>Warranty:</b> The warranty period is shown in the pictogram.
	<b>GLP/ISO log:</b> The balance displays the weight, date and time, regardless of a printer connection.		<b>Battery operation:</b> Ready for battery operation. The battery type is specified for each device.		
	<b>GLP/ISO log:</b> With weight, date and time. Only with KERN printers, see "Accessories", see page 163.				

**Balances & Test service catalogue**

Provides a complete overview of the KERN line of balances, test weights, and services such as verification, calibration, etc.

**Medical scales catalogue**

Complete line of medical scales, from infant scales to patient scales, chair scales and adiposity scales, as well as hand grip dynamometers, chemist's balances and veterinary scales.

**Microscopes & refractometers catalogue**

Extensive range in the area of optical instruments, such as, for example, biological microscopes, stereo microscopes, metallurgical microscopes, polarisation microscopes as well as analogue and digital refractometers.

**SAUTER measuring equipment catalogue**

Test instruments for industry and commerce, such as force, coating thickness, material thickness and calibration service.

**DAkkS calibration service brochure**

Detailed information on topics pertaining to the calibration and verification of balances, test weights, and force measuring devices.

**Your advantages**

**fast**

- 24 hours delivery service – ordered today, on its way tomorrow
- Sales & service hotline available from 8:00 am to 6:00 pm

**reliable**

- 3 years warranty for balances over € 400,-
- Precision in weighing technology for more than 170 years

**competent**

- DAkkS accreditation DIN EN ISO/IEC 17025
- Certified QM system DIN EN ISO 9001:2008
- Authorisation for initial verification by the manufacturer 2014/31/EU
- Medical certifications DIN EN ISO 13485 and 93/42/EEC

**versatile**

- One-stop shopping: from pocket balances through to floor scales – everything from one supplier
- Find the product you want at lightning speed with the “Balance Quick-Finder” at [www.kern-sohn.com](http://www.kern-sohn.com)

 **Order hotline**  
+49 [0] 7433 9933-0

 **Service hotline**  
+49 [0] 7433 9933-199

 **Calibration hotline**  
+49 [0] 7433 9933-196

 **Our team of consultants will assist you**  
from Monday to Friday  
from 8:00 am to 6:00 pm

 **Online Shop**  
[www.kern-sohn.com](http://www.kern-sohn.com)

 **E-mail order**  
[info@kern-sohn.com](mailto:info@kern-sohn.com)

 **Fax order**  
+49 [0] 7433 9933-146

 **[www.kern-sohn.com](http://www.kern-sohn.com)**  
Information on current product availability, product data sheets, user instructions, useful knowledge, technical glossary, images and much for you to download, practical topic areas, which will guide you to the right product in your industry as well as a clever test weight and balance search engine.

## Display devices/Platforms/Weighing bridges

### Putting together individual weighing systems which cannot be verified

KERN offers a range of KERN display devices and KERN weighing units, such as platform scales, floor scales, pallet scales and drive-through scales, which you can put together to make your ideal scale. You choose the components, KERN handles the rest.

#### Assembly

KERN delivers the complete scale which is ready to use. Prices for assembly can be found in the "Assembly" price table. On request we can also produce a calibration certificate in accordance with DAkkS/DKD at an additional price, see page 192

#### Stephan Ade

Product specialist  
Display devices/Platforms/  
Weighing bridges

### Putting together individual weighing systems which can be verified or are verified

In order to provide the complete package, as well as assembling your individual weighing system, KERN will also carry out the manufacturer's initial verification/evaluation for conformity in accordance with EC directives as a commercial scales of verification class III.

In accordance with the verification regulations, when assembling a display device with a weighing unit you must take the following notes into account:

- Only elements which can be verified with build-type approval or OIML test certificate can be combined into a weighing system which can be verified. With KERN these are labelled with "M".
- Platforms with load cells, provided as third-party products which have an OIML test certificate can be included.
- It will not be possible to carry out verification at a later date, e.g. after assembly and delivery of the weighing system. So please order the verification at the same time as you order the weighing system.

You will find a wide variety of display devices, platforms, weighing bridges, etc. in KERN's product range and these can be put together to create your ideal scale. You simply choose the components, KERN handles the rest.

## The individual KERN steps:

<b>1. Proof of compatibility</b>	<b>Weighing range</b>	<b>Model</b>	<b>Price</b> excl. of VAT, ex works €
This is mandatory by law and includes testing by using build-type approvals, whether the connection values of the display device match the connection data of the weighing unit.	0 up ... kg	<b>KERN</b>	
	all weighing ranges	<b>965-240</b>	<b>45,-</b>
<b>2. Assembly</b>			
After testing for suitability, using the proof of compatibility, the weighing system will be wired by KERN. The weighing system will then be adjusted, tested and prepared for verification in accordance with verification regulations.	up ≤ 50 kg	<b>965-411</b>	<b>70,-</b>
	up ≤ 350 kg	<b>965-412</b>	<b>100,-</b>
	up ≤ 1500 kg	<b>965-413</b>	<b>120,-</b>
	up ≤ 2900 kg	<b>965-414</b>	<b>150,-</b>
	up ≤ 6000 kg	<b>965-415</b>	<b>250,-</b>
<b>3. Initial verification by the manufacturer</b>			
KERN is authorised to carry out the initial verification by the manufacturer of scales of verification class III (commercial scales) and is therefore authorised to introduce the weighing system onto the market, after the scale has been sealed with the verification mark.	up ≤ 5 kg	<b>965-227</b>	<b>55,-</b>
	up ≤ 50 kg	<b>965-228</b>	<b>55,-</b>
	up ≤ 350 kg	<b>965-229</b>	<b>93,-</b>
	up ≤ 1500 kg	<b>965-230</b>	<b>132,-</b>
	up ≤ 2900 kg	<b>965-231</b>	<b>220,-</b>
	up ≤ 6000 kg	<b>965-232</b>	<b>320,-</b>
<b>4. Declaration of conformity</b>			
KERN issues this after manufacturer's initial verification has been carried out successfully and sends it with the verified weighing system at no additional costs.			

## Modifications and special services

<b>Description</b>	<b>Model</b>	<b>Price</b> excl. of VAT, ex works €
	<b>KERN</b>	
<b>Cable extensions for platform scales with build-type approval</b>		
up to 4 m extension	<b>965-403</b>	<b>45,-</b>

# Tradition and innovation for more than 170 years

An independent family business, KERN since already 7 generations is synonymous with quality and reliability in customer service.

► 1844

KERN is founded – precision balances are produced

► 1863

A proud Gottlieb Kern with his staff

► 1880

Pharmaceutical balance with Aesculap

► 1923

Inflation – KERN wages are paid with self printed currency

► 1980

The electronic balance ousts mechanical devices

► 1994

Accredited DKD laboratory (ISO 17025)

► 2000

New premises in Balingen

► 2002

Existing QM system certification in accordance with DIN EN ISO 9001:2000 standards

► 2007

Approval for the manufacture of medical products (DIN EN 13485 and 93/42/EEC)

► 2008

Authorisation for initial verification by the manufacturer (2009/23/EU)

► 2009

Approval for the manufacture and sale of height rods (DIN EN 13485 and 93/42/EEC)

► 2012

Verification point for non-automatic balances and test weights.

New customer portal [www.kern-sohn.com](http://www.kern-sohn.com) goes live

► 2014

Expansion of the product range to include optical instruments (microscopes and refractometers)

► 2015

Inauguration of Ziegelei 2.0 with computer-controlled high-bay warehouse
